

# R-3 DIVISION

R-3 serves as the Electrical Repair Division aboard **PUGET SOUND**. The division is made up of four shops with specific missions to the fleet.

In the Motor Breakdown/Rewind Shop (51A), motors of all types and sizes are overhauled or rewound by skilled professionals.

Personnel in the Outside Electrical Shop (51B) provide maintenance to various electrical components and systems, as well as maintaining **PUGET SOUND's** cranes and small boats.

The IC and Gyro Repair Shop (51G) sailors troubleshoot and repair alarms, navigation, communications, and dead reckoning equipment.

Balancing rotating assemblies and sound and vibration analysis of electric motors is done by personnel in the Sound and Vibration Analysis Shop (92A).
