

Right: EW3 Ramirez accepts award from the CO.  
Below: CTA1 Toon is recognized by the CO.

OZ Division is comprised of two rating groups, Electronic Warfare Technicians (EW's) and Cryptologic Technicians (CT's). The EW's man *PROUD PETE's* early warning passive detection system, the AN/SLQ-32 in CIC, and keep a vigilant watch over the electro-magnetic spectrum for the unexpected. The CT's run the *OUTBOARD* passive high frequency direction finding system, and are often tasked with ensuring that the battle-group is complying with the ordered emission control condition in effect. The Cryptologic Technicians aboard are divided into the following specialties: CTA (Administration), CTM (Maintenance), CTO (Communications), CTR (Collection), and CTT (Technical).

EW gang.
